

Over the summer, it is important that you keep up your level of Spanish. **Language abilities atrophy when not used.** The last thing you want is to come back in September and to feel like you have forgotten everything.

The best way to keep languages up is by studying it little but often, e.g. fifteen minutes a day. If you leave everything until the last minute, then it defeats the point of this revision guide and will be less helpful for you.

This revision guide has various parts. There is a grammar revision section for basic tenses, as well as some reading practice and some translation. These will practice your reading and writing skills and make sure that your Spanish grammar is fresh in your mind.

For GCSE you will have been able to conjugate verbs in the:

- Present tense
- Future tense
- Conditional tense
- Preterite
- Imperfect tense

You might also have been able to conjugate verbs in the:

- Perfect tense
- Pluperfect tense

In addition to these tenses, you might also be confident in using other structures. A check list is included in this booklet for you to fill in. This will then be useful in September to see where you need to consolidate your knowledge.

When completing the revision guide, you might find it useful to refer to websites such as [www.conjuguemos.com](http://www.conjuguemos.com), [www.spanishdict.com](http://www.spanishdict.com) or another site that explains Spanish grammar.

Apart from completing this guide you can go onto [www.languagesonline.org.uk](http://www.languagesonline.org.uk) click on the Spanish resources, then AS resources and complete at least 10 exercises. Note which exercises you complete and bring this information to your first lesson. This is a free resource and can be used any time.

To improve your listening skills, you could use 'News in slow Spanish' is a great website which offers downloadable current event podcasts which are recorded daily. A transcript of the podcast is provided and you can slow down the speaker to better your comprehension and/or read along to practice your pronunciation. <https://www.newsinslowspanish.com/>

There's also a really useful section on expressions and colloquialisms which will add flair and style to your writing and speech.
